

Join Turning Point's Forensic Nurse Examiner Program and Oakland University School of Nursing Forensic Nursing at the ...

TARGET AUDIENCE

This 40-hour program is designed for law enforcement, medical professionals, attorneys and advocates who are interested in developing their roles within a multidisciplinary team. The training will focus on a patient-centered multidisciplinary team approach to care for adult and adolescent patients of sexual violence.

SEXUAL ASSAULT NURSE EXAMINER

A registered nurse who has been specially trained to provide comprehensive care to the sexual assault patient, demonstrates competency in conducting a medical/forensic exam, and has the training to be an expert witness.

TRAINING TOPICS

- Forensic Nursing Fundamentals
- Medical Forensic Assessment
- Sexual Assault Investigation
- Identifying Forensic Evidence
- Michigan Criminal Law
- Preparing for Court Testimony
- Emotional Survivor for Responders

The topics listed are considered essential content and focus on the acute adolescent/adult patient. Additional topics or content may be added that are specific to the practice environment.

SEXUAL ASSAULT NURSE EXAMINER ADULT / ADOLESCENT TRAINING

November 16—20, 2015

**Macomb Community College
Emergency Services Training Center
21901 Dunham Road
Clinton Township, MI 48036**

40 contact hours awarded to those who attend entire training

TRAINING TEAM

The training faculty for this conference includes experts in the areas of law enforcement, prosecution, advocacy, and medical forensic examination and evidence collection. This multidisciplinary team has a shared understanding of the goal of meeting the medical/forensic needs of individuals, families, communities, and systems.

CLINICAL REQUIREMENTS

Nurses must complete a clinical requirement for certification with their community after course attendance. This is the responsibility of each individual practitioner. The direct patient care clinical component should complement the classroom educational experience. It provides the registered nurse with the opportunity to apply information and skills obtained during class to a clinical experience, and should be completed in a time frame that ensures competency and maximum retention of knowledge and skills learned in class.

SPEAKER

Renae Diegel, RN, BBL, CEN, CLNC, CMI-III, SANE-A, CFN, CFC, DABFN, DABFE, is a forensic nurse examiner, a former medical death investigator, and the program administrator of forensic

nursing services for Turning Point's Forensic Nurse Examiner Program. In her current position, she provides services that include caring for living patients of sexual assault, domestic violence, child abuse, elder abuse, trauma, and neglect.

Her passion for this specialty area of nursing practice shines through her various commitments. She is an active member of the American Academy of Forensic Sciences, is a level III certified medical investigator, a certified forensic nurse, and certified forensic consultant for the American College of Forensic Examiners International. Renae has earned the distinction of Diplomat with the American Board of Forensic Nurses (DABFN), and American Board of Forensic Examiners (DABFE). She is a respected and sought-after presenter, having shared her forensic nursing expertise with national and international audiences. In addition to being an invited guest speaker at many educational events around the world, Renae is a published author in Forensic Nursing. Renae's nursing roots are deep— she has extensive experience as an emergency room/trauma nurse.
